To download the free app for Android, head to the [Google Play store](#).

To download the free app for iOS (iPhone & iPad), head to the [App Store](#).

USING THE WEBSITE & APP

We've tested the website & both apps and think the order process is pretty intuitive. On the website, you can order prints from files saved to your computer. On the apps, you can order prints from files saved on your phone and from your Facebook, Instagram, Google Photos and Twitter accounts.

Import your photos, select the paper, sizes, cropping & quantities for your images, enter your details & place your order!

If you get a bit stuck during the order process, let us know & we will guide you through the process. But if you can't find where you've saved that photo of the hat wielding dog surfing, we may not be able to help you with that!

PAYMENT

Local Prints Now does not process any payment. To ensure we are receiving legitimate orders, upon receipt of the order, we will send you a text & e-mail to the details provided in the order which will outline ways you can make payment for your order. Your order will be printed upon receipt of payment.

If you are wanting your order couriered to you, please let us know before making payment so we can advise the total order price including the courier charge.
